Alajuela, Costa Rica | deivicb81@gmail.com | +506 6133-4680

linkedin.com/in/dei81 | github.com/dei27 | deivicampos.pages.dev

PROFESSIONAL PROFILE

Software developer with 2+ years of experience in backend development, enterprise systems, POS applications, and web development. Experience with .NET and PHP/Laravel development, REST API integration, MySQL query optimization, data migration, and production support.

PROFESSIONAL EXPERIENCE

MP Sistemas | Software Developer & Technical Support *Feb. 2025 – Aug. 2026 | Remote, Costa Rica*

- Developed and maintained modules, forms, and business logic for a POS system in VB.NET and C#, including bug fixes in legacy code.
- Optimized complex MySQL queries to resolve performance issues in operational processes and reports.
- Migrated and validated data from Excel and integrated with APIs provided by Costa Rica's Ministry of Finance for electronic invoicing processes.
- Managed production incidents end-to-end, including diagnosis, reproduction, bug fixing, builds, deployments, and remote support.

GuruXGlobal | Web Developer *May 2023 – Nov. 2023 | Remote*

- Developed plugins and features with PHP/JavaScript and maintained WordPress/Joomla sites, working with SQL, performance optimization, and technical SEO.

AACROM | Software Development Intern *Apr. 2022 – Jul. 2022 | Costa Rica*

- Developed a web application and a Kanban tool using JavaScript/jQuery, REST APIs, and SQL databases.
